EDUCATION

Rutgers University School of Arts & Sciences
September 2012 – December 2016

New Brunswick, NJ

- Major & Minor: Computer Science(Major) & Psychology(Minor)
- GPA : 3.2

EXPERIENCE

Atlantic Health Systems – Morristown, NJ

May 2016 - Present

Information Support Specialist

- Educated our patients and visitors about the various health technology resources available to them to help lead a healthier lifestyle. Products ranged from Activity Trackers to Wireless blood pressure monitors as well as many apps available to them on the App Store/Google Play Store.
- Helped/Advised in the testing of the hospital wayfinding application “Take Me There” in its pre-release phase and monitored any changes or updates that needed to be made post-release.

Study Abroad Program - Berlin, Germany

January 2015 - May 2015

- Studied the German language while broadening my horizons in a different continent
- Learned to work and live productively/successfully within a different cultural context

Weekend Student Adventures - New Brunswick, NJ/ Berlin, Germany

December 2014 - May 2015

Social Media & Advertisement Coordinator

- Maintained company social media pages by posting effective updates about trips to branch the brand to multiple countries across Europe.
- Responsible for building the number of followers for all social media pages.
- Work with the WSA team across countries to collectively determine cost effective advertisement campaigns.

App Development

- Provided the app developers with extensive outlines for content within the WSA app and gave feedback on errors that needed updating/fixing.

The Keller League – New Brunswick, NJ

September 2012 – May 2014

League Supervisor

- Responsibilities included ensuring proper and efficient function of the staff as a whole to deliver the most effective experience for clients
- Held weekly meetings with office staff to ensure all paper work required for the league was in order and ready for use and uploaded into our database.
- Assisted Owner/Manager or league in schedule composition and proper staff assignments.

Data Tracker/ Office Staff

- Actively recorded data that the league required play by play.
- Kept efficient notes pertaining to infractions and misconduct for weekly reports.

PROGRAMMING LANGUAGE PROFICIENCIES

Java(2 years), C(1 year), Swift, HTML, PHP, CSS, SQL, Scheme, JavaScript, Javafx, Arduino

MAJOR PROJECTS

- Smart Chair (Arduino)
 - Chair designed to improve posture while seated to promote better posture in general
 - Assisted in the coding and functionality of the smart chair
- The College Chooser (HTML,PHP,JavaScript,SQL,CSS)
 - Aimed to help prospective college students choose a college based off the amount of loans they will be paying off.
 - Developed the front and backend of the project.
- Take Me There – Overlook
 - Application developed to help patients and visitors navigate around the hospital
 - Oversaw the testing pre/post release
